

CORRIGENDUM

“THE EFFICIENCY OF SUSTAINABLE DEVELOPMENT GOALS 4 AND 8 IN CHINA: IMPACT OF LOW FERTILITY”

(<https://doi.org/10.3846/tede.2025.24427>)

Li Ji, Shigui Tao, Jiawei Liu, Yanan Sun, Jingjing Geng, Yung-ho Chiu, authors of the article “The efficiency of sustainable development goals 4 and 8 in China: impact of low fertility”, published in *Technological and Economic Development of Economy*, 32(1), 206–232, <https://doi.org/10.3846/tede.2025.24427> inform that several details in Figures 5 and 11 need to be corrected.

Figure 5 (p. 219): “No data” should be used to indicate that the white areas are not included in the study sample, and the inset map has been updated. The note has been added.

Note: The base map was from the Standard Map Service System of the Ministry of Natural Resources of China, Map Review Number: GS(2022)4301, with no modifications to the base-map boundaries. The study sample does not include Xizang, Hong Kong, Macao, or Taiwan because the relevant data are unavailable. The same applies to the following figures and will not be repeated.

Figure 5. The overall efficiency of 30 provinces under S and S*

Figure 11 (p. 229): the inset map has been updated.

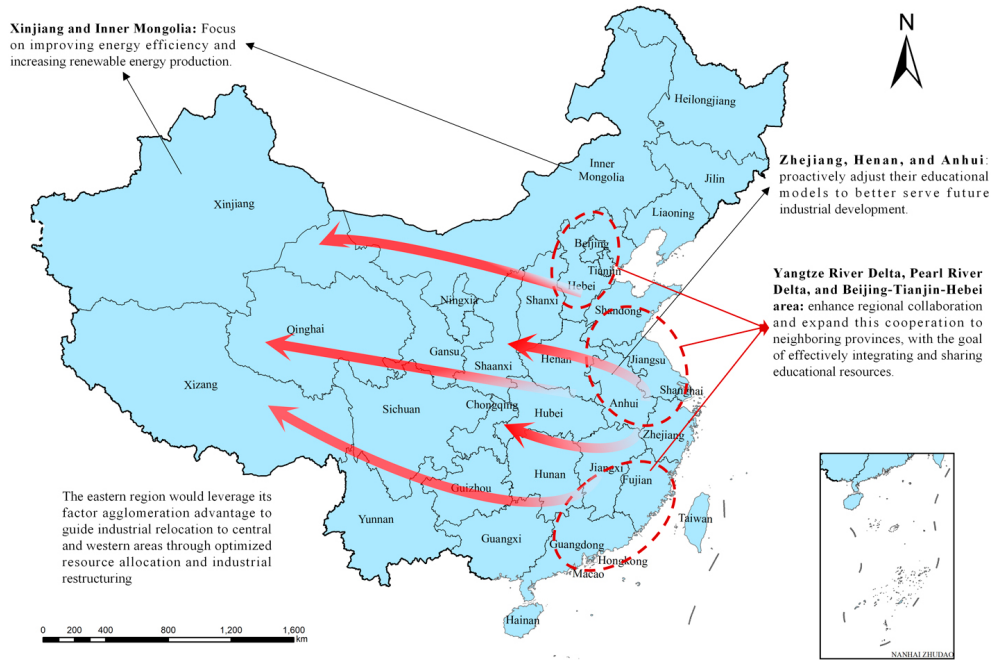

Figure 11. The suggestions in different regions

The corrections have no impact on the data, methodology, results, conclusions, or scientific findings of the paper.

The authors regret the error.
